Feature Guide: Artist & Album Pages

Last Modified on 07/17/2025 10:33 am PDT

At a glance

There are two ways to create a new Artist or Album Page:

- from Playlist Settings
- from an Artist Profile

Create a Page from Playlist Settings

For this option, you'll need to either create a Playlist or choose an existing Playlist to convert into a Page.

- 1. Open the **Playlist menu (:)** and select **Playlist Settings**.
- 2. From the Playlist Settings window, select the Presentation tab.
- 3. Under Choose a design, select a radio button for either Artist Page or Album Page.
- 4. Visit this article for information on customizing your Page.
- 5. Click the **Save** button.
- 6. From the Save Playlist window, click the Save Playlist button.

Create a Page from an Artist Profile

For this option, you'll need to have a list of **Artists** in your DISCO. Artists are created automatically when you upload Tracks containing Artist metadata.

- 1. Open an Artist Profile.
- 2. From the Pages tab, under Generate Page, click the gray Click here button.

Customizations for both Artist and Album Pages

1. Choose an artist from the dropdown. This list contains all Artists in your DISCO.

- 2. Choose a Color theme: Dark or Light by selecting one of the radio buttons.
- 3. Add Hero info, including an Artist image and Artist / Album Info.
 - For the **Artist image**, be sure to check the **Image recommendations** and this article for more details.
 - **Artist / Album Info** is a good place to add a bio or anything you want your listeners to know.
