At a glance

There are two ways to create a new Artist or Album Page:

- from Playlist Settings
- from an Artist Profile

Create a Page from Playlist Settings

For this option, you'll need to either create a Playlist or choose an existing Playlist to convert into a Page.

- 1. Open the Playlist menu (:) and select Playlist Settings.
- 2. From the **Playlist Settings** window, select the **Presentation** tab.
- 3. Under Choose a design, select a radio button for either Artist Page or Album Page.

Playlist Info Presentation Alias Metadata Choose a design Default playlist Artist Page Artist Page Album Page Create an artist page to showcase your artist with an artist image, bio/release details, videos, social links and more. Find out more.

- 4. Visit this article for information on customizing your Page.
- 5. Click the **Save** button.
- 6. From the Save Playlist window, click the Save Playlist button.

Create a Page from an Artist Profile

For this option, you'll need to have a list of **Artists** in your DISCO. Artists are created automatically when you upload Tracks containing Artist metadata.

- 1. Open an **Artist Profile**.
- 2. From the Pages tab, under Generate Page, click the gray Click here button.

3. This will open the Artist's Tracks from your DISCO in the **Playlist Creator**. If needed, you can add, remove, or re-order the Tracks. When you're happy with the tracklist, click the **Save** button.

- 4. From the **Save Playlist** window, select the **Presentation** tab.
- 5. Under Choose a design, select a radio button for either Artist Page or Album Page.

- 8. From the Save Playlist window, click the Save Playlist button.

Customizing a Page

After creating your Page, you can add multiple customizations.

Customizations for Album Pages only

Add or update the **Album Artwork**, **Release Name (Playlist Title)**, and **Release Date**.

Customizations for both Artist and Album Pages

1. Choose an artist from the dropdown. This list contains all Artists in your DISCO.

Choose an artist

- 2. **Choose a Color theme: Dark** or **Light** by selecting one of the radio buttons.
- 3. Add Hero info, including an Artist image and Artist / Album Info.
 - For the Artist image, be sure to check the Image recommendations and this article for more details.

 Artist / Album Info is a good place to add a bio or anything you want your listeners to know.

Synth wave, contemporary rnb, big beat, techno, rngaze, chill out 🐇

4. Add **Social Links** and add or update the link to your **Primary Catalog** by clicking **Manage social links**.

Add social links ×

Example

- 5. Under Contents, you'll see a list of all Tracks that will be displayed on the Page.
- 6. Add a **Video** using the dropdown to select a source (**DISCO**, **YouTube**, or **Vimeo**). If you select DISCO, you can then select a video from your DISCO from the dropdown. If you selected either of the other options, you can enter a URL.

7. Update your **Settings** if you'd like to **Show Business Logo**, **Show contact info**, or **Show lyrics**. To enable any of these, set the toggle to **ON**.

Example

- 8. Click the Save button.
- 9. From the Save Playlist window, click the Save Playlist button.

Editing an existing Page
