Sharing Playlists

Sharing music with DISCO is quick, easy, and convenient! The best way to do this is to share a Playlist.

At a glance

There are a few ways to share your Playlists with users on DISCO and outside of DISCO, including:

- emailing Playlists directly to your Contact(s)
- assigning unique Playlist URLs to your Contact(s)
- copying and sharing the Playlist URL outside of DISCO

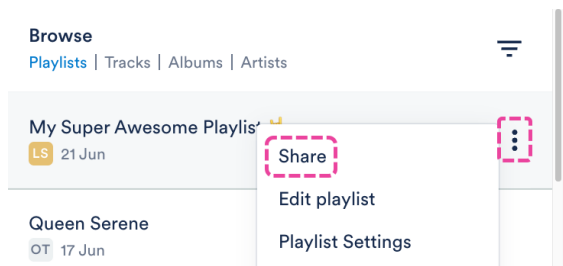

Each of these share methods will generate [Playlist Stats](#), but not all of them will be attributed to individual Contacts.

Emailing Playlists directly to Contacts

Note: Any activity (page views, streams, downloads) originating from this link will be attributed to the specific contact in the Playlist Stats, even if someone else were to access the link.

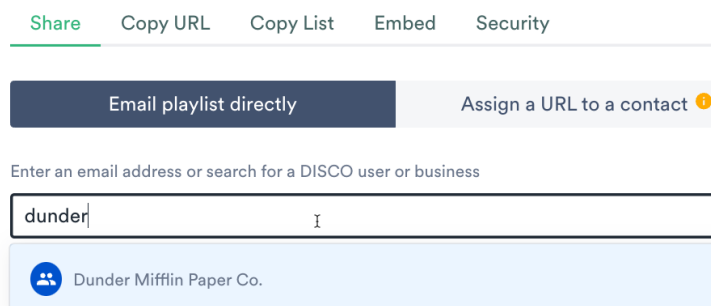

1. Open the **Playlist menu** (:).
2. Select **Share**.

3. In the **Share Playlist** menu, from the **Share** tab, select **Email playlist directly**.
4. Enter an email address, or search for a DISCO user or business name. You can also search for a [Mailing List](#).
5. Suggestions will populate as you begin to type:

Share Playlist

My Super Awesome Playlist 🐼
LS 21 Jun

Searching for a business name will bring up their Team Inbox, a group inbox managed by the other business:

Selecting a Mailing List will populate all contacts from that list (and you'll be able to remove any before sending):

-  This icon indicates a single contact, which can be either a DISCO user or non-DISCO user.
-  This icon indicates a DISCO Team Inbox (a general Inbox for a DISCO account).
-  This icon indicates a Mailing List you've created.

6. You can then add a **Message** if you like, and click the **Send to Recipients** button.

Share Playlist

My Super Awesome Playlist 🎵

LS 21 Jun

Message

Check out my new DISCO playlist!

View current [Share URLs](#) and [Access Stats](#).

Cancel

Send to 4 Recipients

- After sharing, you'll see options to view the playlist access stats, or share the Playlist again:

Playlist Sent!

Your recipients will receive an email shortly! You can check [access statistics here](#).

Share again

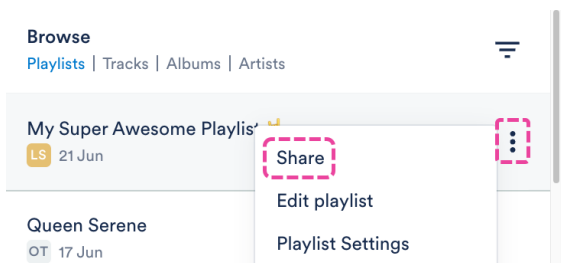

Close

- Your recipients will be notified via email, and you'll also get a confirmation email. Both emails will come from no-reply@disco.ac.

Assigning Playlist URLs to your Contacts

Note: Any activity (page views, streams, downloads) originating from this link will be attributed to the specific contact in the Playlist Stats, even if someone else were to access the link.

- Open the **Playlist menu (⋮)**.
- Select **Share**.

- In the **Share Playlist** menu, from the **Share** tab, select **Assign a URL to a contact**.
- Enter an email address, or search for a DISCO user or business name.

Assign a URL to a contact 📌

Enter an email address or search for a DISCO user or name

Michael Scott

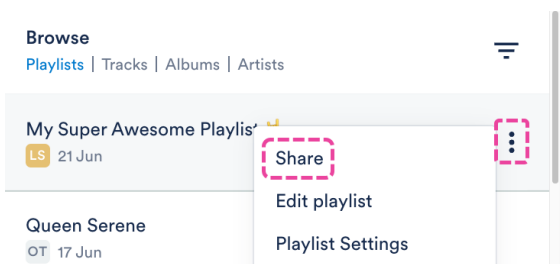

Assign URL

5. Click the **Assign URL** button.
6. Copy the URL and send it to the recipient.

Copying and sharing the Playlist URL

Note: Copying and sharing any of the Playlist Share URLs will not generate individualized Playlist Stats. Instead, these stats will be aggregated under "Other recipients".

1. Open the **Playlist menu** (⋮).
2. Select **Share**.

3. In the **Share Playlist** menu, from the **Copy URL** tab, you can copy any of these links and send them to anyone outside of DISCO.

Assigning Playlist share URLs to Contacts

Assigning Playlist share URLs to contacts

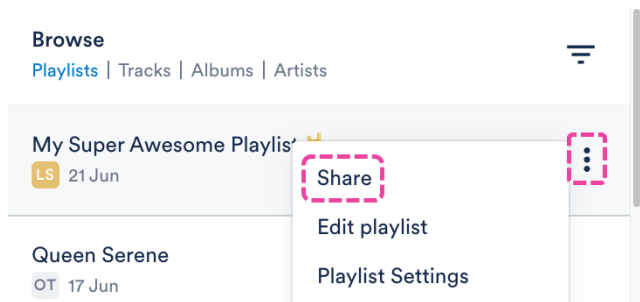

When [sharing a Playlist](#), there are two different share options:

- **Email playlist directly** → allows you to send an email to the recipient directly from DISCO, which contains a link to your Playlist. The recipient's activity (Streams, Downloads, etc.) will be recorded in your Playlist Stats.
- **Assign a URL to a contact** → allows you to create a unique URL for a specific recipient, copy it, and send it to them wherever you like. The recipient's activity (Streams, Downloads, etc.) will be recorded in your Playlist Stats.

Assigning Playlist URLs to your Contacts

Note: Any activity (page views, streams, downloads) originating from this link will be attributed to the specific contact in the Playlist Stats, even if someone else were to access the link.

1. Open the **Playlist menu (⋮)** and select **Share**.

2. In the **Share Playlist** menu, from the **Share** tab, select **Assign a URL to a contact**
3. Enter an email address, or search for a DISCO user or business name.

Email playlist directly

Assign a URL to a contact ⓘ

Enter an email address or search for a DISCO user or name

Assign URL

4. Click the **Assign URL** button.
5. Copy the URL and send it to the recipient.

Disabling and re-enabling Playlist share URLs

Users on our **Plus** plan and above have the option to disable individual share URLs for Playlists so they'll no longer be accessible to recipients.

At a glance

This can *only* be done on share URLs you've generated by [emailing playlists directly](#), or by [assigning URLs to specific Contacts](#). *Public playlist URLs cannot be disabled.*

Disabling a Playlist share URL

1. Open the **Playlist menu (:)**.
2. Select **Share**.
3. In the **Share Playlist** menu, from the **Share** tab, scroll to the bottom where it says "View current Share URLs and Access Stats."
4. Click the **Share URLs** link.
5. A list of **Current share URLs** will appear. Click the **X** under the **Action** column to the right of the share URL you'd like to disable.

O2 Olivia 2	@gmail.com	Copy URL	✕

6. You'll be asked to confirm that you want to disable the link. Click the red **Confirm** button.

Re-enabling a disabled Playlist share URL

1. Open the **Playlist menu (:)**.
2. Select **Share**.
3. In the **Share Playlist** menu, from the **Share** tab, scroll to the bottom where it says "View current Share URLs and Access Stats."

4. Click the **Share URLs** link.
5. A list of **Current share URLs** will appear. Click the refresh icon under the **Action** column to the right of the share URL you'd like to re-enable.

Frequently asked questions

How soon after disabling a URL will it become inaccessible?

Once you disable a URL, it will no longer load for recipients. If a recipient had the Playlist page open already before you disabled it, that page will be invalidated and a "page unavailable" message will appear within 10 minutes.

Setting expiry dates for Playlist share links

Users on our **Pro** and **Enterprise** plans can set expiry dates on Playlist share links.

At a glance

This is helpful if you'd only like a shared Playlist to be available for a certain amount of time. Once you set an expiry date, it will appear in **green** under the **Security** tab in the **Share Playlist** menu.

Adding your Contact details to public Playlist and Track pages

You can update your **Settings** to add custom **Contact details** in the footer of all your Playlists and Track pages.

At a glance

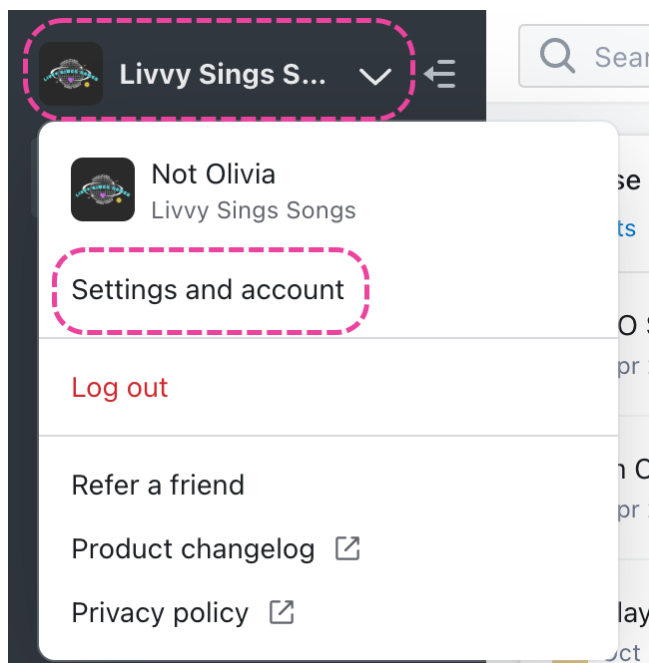

This information will appear on all Playlist and Track pages you share and is specific to you. Other users in your DISCO can add the same Contact details or include their own.

Updating your Settings

1. In the top-left corner of your DISCO, click on your DISCO Business Name to open the menu.
2. Select **Settings and Account**.

3. Under **My Settings** select **Profile & Account**.
4. Add your information in the **Contact details** box.

5. Check the box to **Include contact details on my public DISCO pages**.

6. Click the **Update Settings** button.

Embedding your DISCO content on external sites

You can embed Tracks, Playlists, and more from your DISCO using our embeddable player.

At a glance

Here's an example of what an embedded Track player looks like (without customization or allowing downloads):

Feel free to [reach out to our Support team](#) if you need any help with this ☐

Submitting your DISCO Tracks on promotion sites (Submithub, Musosoup, Pytch, etc.)

When promoting your music, publicists and promo platforms typically want to listen to your music several weeks before the release date. With DISCO, it's easy to share your music with album artwork, metadata, and high-quality audio before it's released.

At a glance

You can share links and embed codes for individual Tracks from your DISCO to submit on promo platforms such as Submithub, Pytch, and Musosoup. This is not meant to be an exhaustive list of all platforms, if you find that a platform doesn't support DISCO links, feel free to contact their support or [contact us](#) and we'll try to get it sorted ☐☐

Submithub

1. Open the **Track menu (⋮)** and select **Share**.
2. In the **Share Track** menu, from the **Copy URL** tab, copy the **Regular track URL**.

Share Track

FAQ

- Do bloggers really provide original feedback? How do I know it's not copy-pasted?
- Is Submithub for me?
- Can I submit an unreleased song?
- What happens when someone approves my song?
- Do I have to pay to use Submithub?
- Does using Submithub guarantee placement?
- What if I want to share an album or EP?
