Sharing Playlists

Sharing music with DISCO is quick, easy, and convenient! The best way to do this is to share a Playlist.

At a glance

There are a few ways to share your Playlists with users on DISCO and outside of DISCO, including:

- emailing Playlists directly to your Contact(s)
- assigning unique Playlist URLs to your Contact(s)
- copying and sharing the Playlist URL outside of DISCO

| | Share Playlist | × | |
|----------|--|---|----------|
| | My Super Awesome Playlist 🤘 LS 21 Jun | | |
| | Share Copy URL Copy List Embed Security | | |
| Option 1 | Email playlist directly Assign a URL to a contact | | |

| | Email address or DISCO user or business | | |
| | Subject | | |

Each of these share methods will generate Playlist Stats, but not all of them will be attributed to individual Contacts.

Emailing Playlists directly to Contacts

Note: Any activity (page views, streams, downloads) originating from this link will be attributed to the specific contact in the Playlist Stats, even if someone else were to access the link.

- 1. Open the **Playlist menu (:)**.
- 2. Select Share.

| Browse Playlists Tracks Albums Ar | Ŧ | |
|--|------------------------------------|--|
| My Super Awesome Playlis | Share | |
| Queen Serene OT 17 Jun | Edit playlist Playlist Settings | |

- 3. In the Share Playlist menu, from the Share tab, select Email playlist directly.
- 4. Enter an email address, or search for a DISCO user or business name. You can also search for a Mailing List.
- 5. Suggestions will populate as you begin to type:

| Share Playlist | | | | | | |

Searching for a business name will bring up their Team Inbox, a group inbox managed by the other business:

Selecting a Mailing List will populate all contacts from that list (and you'll be able to remove any before sending):

 This icon indicates a single contact, which can be either a DISCO user or non-DISCO user.

This icon indicates a DISCO Team Inbox (a general Inbox for a

DISCO account).

🙁 This icon indicates a Mailing List you've created.

6. You can then add a **Message** if you like, and click the **Send to Recipients** button.

- Assign a URL to a contact → allows you to create a unique URL for a specific recipient, copy it, and send it to them wherever you like. The recipient's activity (Streams, Downloads, etc.) will be recorded in your Playlist Stats.

Frequently asked questions

How soon after disabling a URL will it become inaccessible?

Once you disable a URL, it will no longer load for recipients. If a recipient had the Playlist page open already before you disabled it, that page will be invalidated and a "page unavailable" message will appear within 10 minutes.

Setting expiry dates for Playlist share links

Users on our **Pro** and **Enterprise** plans can set expiry dates on Playlist share links.

At a glance

This is helpful if you'd only like a shared Playlist to be available for a certain amount of time. Once you set an expiry date, it will appear in **green** under the **Security** tab in the **Share Playlist** menu.

Once the link has expired, it will no longer be accessible to recipients, and the date will appear in **red**.

Here's an example of what an embedded Track player looks like (without customization or allowing downloads):

Feel free to reach out to our Support team if you need any help with this []

Submitting your DISCO Tracks on promotion sites (Submithub, Musosoup, Pytch, etc.)

When promoting your music, publicists and promo platforms typically want to listen to your music several weeks before the release date. With DISCO, it's easy to share your music with album artwork, metadata, and high-quality audio before it's released.

At a glance

You can share links and embed codes for individual Tracks from your DISCO to submit on promo platforms such as Submithub, Pytch, and Musosoup. This is not meant to be an exhaustive list of all platforms, if you find that a platform doesn't support DISCO links, feel free to contact their support or contact us and we'll try to get it sorted []]
