Q: Can I make the Explorer columns wider?

Q: Can I make the Explorer columns wider?

Yes!

- 1. In the top-left corner of your DISCO, click on your DISCO Business Name to open the menu.
- 2. Select Settings and Account.

- 3. Under My Settings, select Display Settings.
- 4. Open the **Explorer column width** drop-down and select one of the three options:
 - **Default** (the narrowest setting, recommended for smaller displays)
 - Large (wider columns, suitable for most regular-size screens)
 - Larger (use this if you have long titles *and* a large display)
