Q: Can I copy the tracklist from my playlist?

Yes! It is very easy to do this.

1. Open the **Playlist menu (⋮)** and select **Share**.
2. From the **Share Playlist** page, select the **Copy List** tab.

3. Click the **Copy tracklist** button.

You can then paste this into any document or spreadsheet you like. When pasted into a spreadsheet, the information will appear in separate columns. It will also include any Sections in the Playlist.
