This feature is available to users on our **Artist** and **Pro** plans.

Enabling password protection

Note: Once you set a password for a Playlist, all Playlist Share URLs for that Playlist will require that password for access.

There are two ways to set a password for your Playlist:

- from the Share Playlist menu
- from Playlist Settings

From the Share Playlist menu:

- 1. Open the **Playlist menu (:)**.
- 2. Select Share.
- 3. From the **Security** tab, set the **Password protect** toggle to **ON**.

- 5. Send the password to the recipient using a secure method, as it cannot be sent via DISCO.
- 6. When the recipient accesses the Playlist, they'll be prompted to enter the password.
- Once the recipient enters the password and clicks the **Open playlist** button, they'll be able to access it.

From Playlist Settings:
