# Linking Artist Profiles

Last Modified on 03/11/2025 2:32 pm PDT

The **Artist Profiles** in your DISCO are the same ones that are displayed in your **DISCO Catalogs** under **Artists** (in the left sidebar). You can link multiple Artist Profiles together so that users are presented with a consolidated Artist Profile when browsing through Tracks with different Artist names in your Catalog.

At a glance

This is useful for Artists who have bodies of work under different aliases or just prefer all of their Tracks to appear under the same Artist Profile in their Catalog.

Linking Artist Profiles

There are two ways to do this:

- from within an Artist Profile
- from your Catalog Settings

Before linking, determine which will be the **parent artist**, or the artist whose Profile under which Tracks from the other artist aliases will be nested.
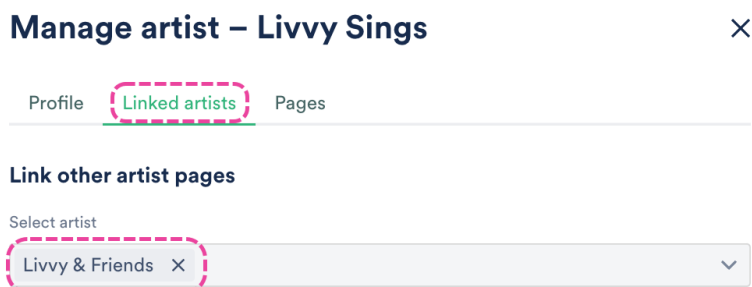

> **Example**
> We want **Livvy Sings** to be the parent artist and Tracks from **Livvy & Friends** should be nested under the Livvy Sings Artist Profile.

Livvy & Friends
1 track

Livvy Sings
1 track
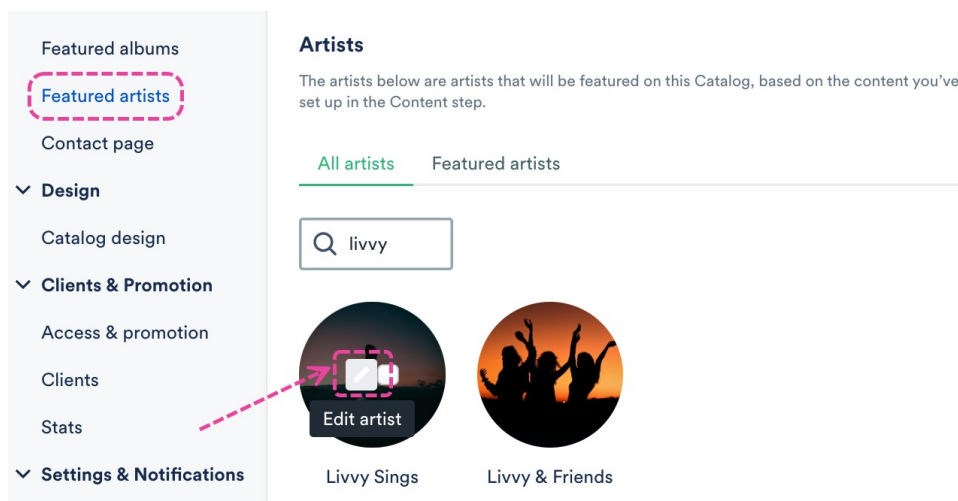

From within an Artist Profile

1. Open the **Artist Profile** for the parent artist.
2. Select the **Linked artists** tab.
3. Select the artist(s) you want to link from the dropdown.

Manage artist – Livvy Sings   ✕

Select artist

Livvy & Friends ✕   ⌄

4. Select the **Profile** tab and click the **Save** button.

From your Catalog Settings

1. Open the **Catalog Settings** for the desired Catalog.
2. Under **Content**, select Featured **artists**.
3. Locate the parent artist, hover over the thumbnail, and click the pencil to **Edit artist**.

Artists

The artists below are artists that will be featured on this Catalog, based on the content you've set up in the Content step.

All artists   Featured artists

🔍 livvy

Edit artist

Livvy Sings   Livvy & Friends

4. In the **Manage artist** window, select the **Linked artists** tab.
5. Select the artist(s) you want to link from the dropdown.

Manage artist – Livvy Sings   ✕

Profile   Featured tracks   Linked artists

**Link other artist pages**

Select artist

Livvy & Friends ✕   ⌄

6. Select the **Profile** tab and click the **Save** button.

Viewing linked artists in your Catalog

After the artists are linked, *only the parent artist* will have an Artist Profile in your Catalog.

Searching for and selecting any of the linked artists (e.g. **Livvy & Friends**) in your Catalog will re-direct to the parent Artist Profile (e.g. **Livvy Sings**) where Tracks from all linked artists will appear.
