

Creating Albums on DISCO

Last Modified on 01/06/2026 7:45 pm PST

You can categorize and showcase **Albums** in your DISCO and on your **DISCO Catalog**.

At a glance

Albums on DISCO are still technically **Playlists**. With the addition of **Release dates**, you can showcase your newest releases to your clients.

Converting a Playlist into an Album

There are two ways to convert an existing Playlist into an Album:

- from Playlist Settings
- when editing your Playlist

From Playlist Settings

1. Open the **Playlist menu (:**) and select **Playlist Settings**.
2. From the **Playlist Info** tab, under **Browse Settings**, set the **Album** toggle to **ON**.

3. *Optional:* Enter a **Release date** if you'd like your clients to see your newest releases in your DISCO Catalogs.
4. Click the **Save Playlist** button.

When editing your Playlist

1. Open the **Playlist menu (:**) and select **Edit playlist**.
2. This will open your Playlist in the **Playlist Creator**. From the Playlist Creator, click **Save**.

The screenshot shows the 'Playlist Creator' interface. At the top, it says 'Playlist Creator' and has a '+' button. Below that is the title 'My Super Awesome Playlist' with a hand icon, and '16 TRACKS | 01:00:19'. To the right of the title is a 'Save' button with three dots, which is highlighted with a red dashed box. Below the title, there are two tracks listed: '1 Broken coin (Final Master) 2' and '2 Penelope Fresh'. Each track has a small thumbnail, the track number, the title, and the album name.

3. In the **Save Playlist** menu, from the **Playlist Info** tab, under **Browse Settings**, set the **Album** toggle to **ON**.

The screenshot shows the 'Save Playlist' menu with the 'Browse Settings' tab selected. It includes options like 'Client Version', 'Viewable only by me', and 'Album'. The 'Album' toggle switch is highlighted with a red dashed box and an arrow points to it from the left. Below the 'Album' section is a 'Release date' field with a 'Select a date' button and a calendar icon.

4. *Optional:* Enter a **Release date** if you'd like your clients to see your newest releases in your DISCO Catalogs.
5. Click the **Save Playlist** button.
