Playlists are a great way to organize and share your music!

## At a glance

**Playlists** are like customizable one-page websites with unique URLs that can be shared with recipients for streaming and/or downloading your Tracks.

You can create Playlists from existing Tracks in your DISCO, or right after uploading new Tracks to your DISCO.

### **Creating new Playlists from existing Tracks**

When browsing through your DISCO, you can drag and drop existing Tracks into the **Playlist Creator** at any time to start building a Playlist.

Browse	My First DISCO Playlist	My First DISCO Playlist 🥰		Ð
Playlists   Tracks   Albums   Artists	4 tracks   a day ago		Untitled playlist	Save

OD 1:37 PM	Cave Dweller

23 dui	Blue Waves		۵. 🕸	

You can also use the search bar at the top of your DISCO to perform a search and then drag Tracks from the **Search Results** into the Playlist Creator.

In the Playlist Creator, you have the option to add a **Name** for your Playlist, drag to reorder the Tracks, and add **Sections** to your Playlist.

When you're ready to create the Playlist, click the **Save** button.

#### **Creating new Playlists after uploading Tracks**

After uploading Tracks to your DISCO, click the **Save** button in the **Playlist Creator**.

### **Updating Playlist Settings and saving your Playlist**

After clicking the **Save** button in the **Playlist Creator**, the **Save Playlist** window will open:

#### Save Playlist

From the **Playlist Info** tab, you can give your Playlist a **Name** and enable any of the desired **Playlist Settings** (including **Content Settings, Security Settings,** or **Browse Settings**) by switching the toggles to **ON**. You can also add **Playlist tags**, or add your Playlist to a **Channel**.

From the **Presentation** tab, you can choose a design for an **Artist Page** or **Album Page**, add a **Playlist Theme**, and update some additional **Settings**, such as to **Show lyrics** on your Playlist.

If you are on a **Plus** or a **Pro** plan, you can add **Alias Metadata** as well.

# *Note:* Some settings are specific to specific plans and may not be available in your DISCO.

When you're done, click the **Save Playlist** button. Now you can preview or share your new Playlist!

#### **Creating multiple Playlists at once**

You can create multiple Playlists at the same time in the Playlist Creator! If you already have

Tracks in the Playlist Creator and want to create another Playlist, click the + plus button.

You can then upload or drag Tracks into the new Playlist, and give each Playlist a name.

If needed, you can minimize any of the Playlists by selecting **Minimise** in the **Playlist Creator menu ( : )**.

You can also click the **Expand** option to view the Playlist Tracklist again.

After saving one of the Playlists, it will disappear from the Playlist Creator:

Once your Playlist is saved, it will be removed from the Playlist Creator, but it will be available in your **Browse** section under **Playlists**.

#### **Previewing your Playlist**

To access the public view of your Playlist (to see how it looks outside of DISCO):

- 1. Open the **Playlist Menu (:)**.
- 2. Select Share.

3. From the **Share Playlist** menu, under the **Copy URL** tab, click the **Open in new tab** icon to the right of the **Public playlist URL**.
