Deleting Playlists in DISCO is quick and easy.

At a glance

The process differs slightly depending on how many Playlists you are deleting at once.

Important: *Deleting a Playlist can't be undone.*

Deleting a single Playlist

1. Open the **Playlist menu (⋮)** and select **Delete playlist**.
2. In the **Delete playlist** window, choose an option:
 - **All Versions** - This will completely remove the Playlist from your DISCO.
 - **Latest Version** - Every time you make a change to a Playlist and save it, it creates a new version of the Playlist. This option will just delete *the most recently saved version* of the Playlist. Once deleted, the Playlist will revert to the version that was saved before the most recent version. Think of it like an "Undo" button.

Frequently asked questions

Does deleting a Playlist also delete its Tracks from DISCO?

No. Deleting a Playlist only deletes the Playlist; the Tracks will remain in your DISCO.
