

Disabling and re-enabling Playlist share URLs

Last Modified on 03/24/2025 12:23 pm PDT

Users on our **Plus** plan and above have the option to disable individual share URLs for Playlists so they'll no longer be accessible to recipients.

At a glance

This can *only* be done on share URLs you've generated by [emailing playlists directly](#), or by [assigning URLs to specific Contacts](#). *Public playlist URLs cannot be disabled.*

Frequently asked questions

How soon after disabling a URL will it become inaccessible?

Once you disable a URL, it will no longer load for recipients. If a recipient had the Playlist page open already before you disabled it, that page will be invalidated and a "page unavailable" message will appear within 10 minutes.
