

Sharing Playlists

Last Modified on 03/24/2025 12:21 pm PDT

Sharing music with DISCO is quick, easy, and convenient! The best way to do this is to share a Playlist.

At a glance

There are a few ways to share your Playlists with users on DISCO and outside of DISCO, including:

- emailing Playlists directly to your Contact(s)
- assigning unique Playlist URLs to your Contact(s)
- copying and sharing the Playlist URL outside of DISCO

Each of these share methods will generate [Playlist Stats](#), but not all of them will be attributed to individual Contacts.

Emailing Playlists directly to Contacts

Note: Any activity (page views, streams, downloads) originating from this link will be attributed to the specific contact in the Playlist Stats, even if someone else were to access the link.

1. Open the **Playlist menu (⋮)**.
2. Select **Share**.

3. In the **Share Playlist** menu, from the **Share** tab, select **Email playlist directly**.

4. Enter an email address, or search for a DISCO user or business name. You can also search for a [Mailing List](#).
5. Suggestions will populate as you begin to type:

Selecting a Mailing List will populate all contacts from that list (and you'll be able to remove any before sending):

6. You can then add a **Message** if you like, and click the **Send to Recipients** button.
